EBC*L – The international certificate for Business Competence and Entrepreneurship

The European Business Competence* Licence, EBC*L is an Europe wide established business qualification certificate attesting the holder the core competence needed to

- take part in economic life
- be able to run a department and make managerial decisions
- control and manage the financial aspects of a project
- to start up a new business

The EBC*L certificate demonstrates business management expertise on an internationally recognized level. The EBC*L is currently established in more than 30 countries and is available in 24 languages.

Due to its high degree of transparency the European Business Competence* Licence is accredited by international economy. A huge number of well known companies (including Siemens, T-Mobile, Xerox, Bayer, Uniqua, Samsung) have successfully integrated EBC*L into their in-house staff development programs.

The EBC*L is established in several projects financed by the European Union.

The Initiative

Economic core knowledge is one of the most important key competences to meet the challenges of globalization. The initiative “Business Competence for Europe” was started, to spread core business management knowledge among those, who haven’t studied business management. It developed the internationally recognized certificate European Business Competence* Licence, EBC*L.

EBC*L Certificate

The EBC*L certification system consists of a publicly available syllabus for each competence level and an international standardized examination.

The EBC*L levels are:

- Level A: Business Basis
- Level B: Business Planning
- Level C: Leadership

Successful candidates get the certificate, issued by the International Centre of the EBC*L and the Council Business Competence for Europe.

Preparation Courses

The courses preparing the candidates for the EBC*L examination are conducted by local training institutions and universities as well as universities of applied sciences. All of them are accredited partners of the Representation Office in the particular country and fulfil the fixed quality standards. The preparation courses per level comprise 40 to 60 hours.

Preparation Material

The preparation for the EBC*L examination can be done in English or German language by means of certified preparation instruments such as

- Books
- E-learning Programmes (CD-ROM, Internet)
- Trainings material
